

THIS NOTICE MUST BE DETACHED BEFORE THE DOCUMENT  
IS REMOVED FROM TALENT/KEYHOLE/COMINT CHANNELS

Attached is a sanitized version of TCS No. 4511/66,  
Interagency Study of Inspection for Undeclared Ballistic  
Missile Production Facilities in the USSR (~~Top Secret~~)

25X1A

~~Diff-Div~~  
The sanitized version is being disseminated in regular channels to various agencies of the U.S. government, in some cases to components or persons who were not aware of the Codeword study. It is hoped that the SECRET classification will broaden the usefulness of the initial study for all those U.S. agencies dealing directly with inspection problems.

Although distribution of the Secret version of this report has also been limited, a few additional copies may be requested through CIA.
